

Dear CalSTRS member,

You're helping your students build their futures, don't forget about yours.

Your Member Kit provides a quick understanding of your defined benefit pension. As a vested member of CalSTRS, you're eligible to receive a lifetime monthly benefit when you retire.

Your income in retirement is a shared responsibility between CalSTRS and you. Your CalSTRS benefit will replace about half of your final pay. Need more for your future? Pension2, CalSTRS' voluntary supplemental savings plan, can help fill the gap. See pages 12-14 to learn more.

We invite you to take a few minutes now to look through your kit.

Thank you for choosing education for your career.

Sincerely,

Jack Ehnes

Jack Ehnes
Chief Executive Officer

CALSTRS®

YOUR SMART START MEMBER KIT		
Newly Vested	2015	

THE BENEFIT OF A LIFETIME

On our cover:

Manuel teaches U.S. history, American government and urban studies at a high school in Southern California. He has been a CalSTRS member for 12 years.

Will You Have Enough?

Start now, invest regularly and your money can work for you.

See pages 12–14.

5 Reasons Why You Should Start a 403(b) or 457(b) Account Now

- 1 Close your retirement income gap.
- 2 Give yourself a tax break.
- 3 Easy Choice Portfolio investing.
- 4 Saving now can make a big difference later.
- 5 Peace of mind for a secure future.

Your CalSTRS Retirement at a Glance

If you're like most educators, your retirement income will come from four main sources:

- Your CalSTRS monthly retirement benefit.
- Your CalSTRS Defined Benefit Supplement funds.
- Your investment savings, such as CalSTRS Pension2 403(b), 457(b) and Roth 403(b) accounts.
- Other personal savings.

CalSTRS administers a hybrid retirement system consisting of traditional defined benefit, cash balance and voluntary defined contribution plans:

- **Traditional defined benefit plan:** Your CalSTRS monthly retirement benefit is a defined benefit pension based on a formula:

service credit x age factor x final compensation

- **Cash balance plan:** Your CalSTRS Defined Benefit Supplement is a cash balance plan. Your contributions and your employer's contributions earn a guaranteed annual interest rate. All the funds in your account are yours at retirement.
- **Defined contribution plan:** CalSTRS Pension2 offers 403(b), 457(b) and Roth 403(b) plans for additional income in retirement. Contribute to your tax-advantaged account through paycheck deductions. The amount you have at retirement depends on your contributions, investment gains or losses, and expenses.

Your income in retirement is a shared responsibility between CalSTRS and you.

Get Smart About Your Future

Your Benefit of a Lifetime

As a vested member of CalSTRS, you're entitled to a guaranteed, lifetime monthly benefit when you retire. Your retirement benefit is a defined benefit pension based on a formula set by law, not on how much you contribute or how well investments perform:

service credit x age factor x final compensation = your retirement benefit

CalSTRS Is Here for You

Our primary responsibility is to provide you with retirement, disability and survivor benefits. We also offer resources specific to your career stage:

- Your annual *Retirement Progress Report*, available on *myCalSTRS*, which provides a summary of your accounts and service credit.
 - Online services and forms on *myCalSTRS*.
 - Customer service by email, phone, letter or in person.
 - Knowledgeable CalSTRS representatives to help you understand your benefits and more.
 - Publications, including the *Welcome to CalSTRS* booklet, workshops and member education videos.
 - CalSTRS Pension2® 403(b) and 457(b) plans with low fees and expenses for additional income in retirement.
 - Side-by-side investment comparisons of 403(b) plans in California at 403bCompare.com.
- Find publications, forms, videos, workshops and more at CalSTRS.com.

Calculate
your gap.
See page 10.

Your CalSTRS Retirement Benefit—Will It Be Enough?

The median CalSTRS retirement benefit replaces about 60 percent of a member's salary. You'll need to close any gap between your retirement goal and your retirement benefit with savings and investments, such as CalSTRS Pension2.

➤ See page 12 to learn more.

Get the Facts on Social Security

As a California public school educator, you do not contribute to Social Security, so you will not receive a Social Security benefit for your CalSTRS-covered employment when you retire.

If you're counting on Social Security through your spouse or other employment, two federal rules—the Government Pension Offset and the Windfall Elimination Provision—may leave you with a smaller Social Security benefit or possibly no benefit at all.

Your CalSTRS retirement benefit will not be reduced by these rules.

- See “Your Retirement Benefit and Social Security” in the *Member Handbook*. Also see the *Social Security, CalSTRS and You* fact sheet at CalSTRS.com/publications.

View the Introduction to Social Security video at CalSTRS.com/videos.

Estimate Your Retirement Benefit Online

Your primary retirement benefit is based on a formula set by law:

service credit x **age factor** x **final compensation**

You can retire as early as age 50 with at least 30 years of service credit, or age 55 with at least five years of service credit—or less, if retiring concurrently from certain other California public retirement systems.

Service Credit

Service credit is the number of school years, including partial years, you have worked and contributed to CalSTRS:

- You earn service credit every day you work or are on paid leave.
- You can earn up to one year of service credit in a school year. If you work less than full time, your service credit for the year may be less than one year.

If you earn more than one year of service credit in a school year by performing extra-pay assignments for school activities, most of your and your employer's contributions from the additional service will go into your Defined Benefit Supplement account (see page 7).

Age Factor

Age factor is a percentage based on your age at the time you retire. The age factor is set at 2 percent at age 60. It decreases if you retire before age 60 and increases up to a maximum of 2.4 percent at age 63.

Final Compensation

Final compensation is your highest average annual compensation earnable for 36 consecutive months, or your highest 12 consecutive months if you have more than 25 years of qualified service credit.

- See “Your Retirement Benefit” in the *Member Handbook*.

- 📺 View the Understanding the Formula video at CalSTRS.com/videos.

Your Retirement Benefit—Your Options

The highest retirement benefit you can receive is the Member-Only Benefit. The Member-Only Benefit stops with your death. You can choose to provide a lifetime monthly benefit to someone upon your death. If you choose to do so, your benefit will be reduced based on your age and your beneficiary's age at the time you elect an option, and the option you elect.

- 📺 View the Beneficiary Options video at CalSTRS.com/videos.

- Estimate your projected retirement benefit using the calculator at CalSTRS.com/calculators.

Contributions to Your CalSTRS Retirement

CalSTRS pays retirement benefits using a combination of investment income and contributions. Under the 2014 CalSTRS Full Funding Plan, increased contribution rates will be phased in over several years.

Member Contributions

You now contribute 9.20 percent of your Defined Benefit creditable earnings to help finance your retirement benefit. The rate increases to 10.25 percent in 2016–17.

Employer Contributions

For 2015–16, your employer contributes an amount equal to 10.73 percent of your Defined Benefit creditable earnings. Employer contributions are increasing every year, up to 19.1 percent in 2020–21.

State Contribution

The State of California contributes a percentage of the annual earnings of all members, plus an amount for purchasing power protection, currently about 7.39 percent. The rate is gradually rising to 8.828 percent in 2016–17.

Inflation Protection

Your retirement benefit is protected against rising prices two ways:

- Starting September 1 after the first anniversary of your retirement date, your benefit increases automatically each year at 2 percent of your initial benefit.
- If inflation erodes the purchasing power of your retirement benefit to less than 85 percent of your initial monthly benefit, you will receive an additional quarterly payment, subject to the availability of funds set aside for purchasing power protection.

Health Insurance in Retirement

CalSTRS does not provide health benefits. Your health benefits depend on your district's agreement with your employee bargaining unit. Many retired educators have to contribute to or pay their own health insurance costs. **Consider setting aside extra money now for your future.**

You and your employer each pay 1.45 percent of your wages toward earning coverage under Medicare, the federal health insurance program for people age 65 and older.

Securing Your Financial Future

The 2014 CalSTRS Full Funding Plan, enacted in Assembly Bill 1469, sets a course for CalSTRS' long-term viability. The plan relies on gradual contribution increases from all parties—members, employers and the state—without reducing benefits:

- Your member contribution rate will be increasing to 10.25 percent in 2016–17.
- The employer contribution rate will be gradually increasing to 19.1 percent in 2020–21.
- The state's contribution rate will be increasing to 8.828 percent, including purchasing power protection, in 2016–17.

Investment returns from the CalSTRS portfolio provide 58 percent of the funds to pay benefits, with contributions providing 42 percent. Lower than expected returns largely due to the economic downturns in the last decade resulted in a funding shortfall, which was too large to rely on healthy returns to make up the ground lost.

With a responsible plan in place, we're on target to meet our promise of a secure financial future for California's educators.

Your Defined Benefit Supplement Account— Additional Money for Retirement

As a Defined Benefit member, you have a Defined Benefit Supplement account that provides additional savings for your retirement.

You cannot earn more than one year of service credit in a school year. Most of your and your employer's contributions from your earnings in excess of one year, up to the compensation cap, will go into this account. You can build your account by taking on extra-pay assignments such as summer school, yearbook adviser, soccer coach or band director.

Your account balance earns a guaranteed rate of interest. For 2015–16, the rate is 3.15 percent. When you retire, you'll receive your CalSTRS monthly retirement benefit and your Defined Benefit Supplement funds.

- Find your current balance on your *Retirement Progress Report* at *myCalSTRS*.

Excess Contributions

Starting July 2014, if you make contributions on earnings in excess of one year of service credit in a school year, you are eligible for a return of your contributions that exceed the 8 percent contribution rate on Defined Benefit Supplement compensation. Any excess contributions will be reported on your *Retirement Progress Report*, available on *myCalSTRS* in September. CalSTRS will return any excess contributions to your employer in October. Your employer is responsible for returning the excess contributions to you. Please contact your employer if you have any questions.

📺 View the Defined Benefit Supplement videos at CalSTRS.com/videos.

Considering a Career Change?

You can keep your money with CalSTRS if you leave public education. Even if you think you may not return to public education, taking a refund may not make financial sense.

Benefits of leaving your contributions with CalSTRS:

- You'll keep your service credit.
- Your accounts will continue to accrue interest.
- You'll be eligible for a monthly retirement benefit when you're age 55 if you have at least five years of service credit—or less, if retiring concurrently from certain California public retirement systems.

Consequences of cashing out include:

- You'll no longer be a member of CalSTRS.
- You'll lose your benefits.
- Your refund may be subject to additional federal and state taxes if you take your refund before age 59½ and do not roll over your funds to a qualified retirement plan.
- Redepositing refunded contributions to restore service credit can be expensive. (You cannot withdraw employer contributions.)

➤ See the *Refund: Consider the Consequences* fact sheet at CalSTRS.com/publications.

📺 View the *Refund: Consider the Consequences* video at CalSTRS.com/videos.

Valerie

Elementary school teacher
CalSTRS member for 11 years

Review Your Retirement Progress Report Online

Keep tabs on your CalSTRS account and service credit balances by reviewing your *Retirement Progress Report* each year. Your new report is available online on *myCalSTRS* in September.

Your report summarizes:

- The service credit you earned the previous year.
- Your total accumulated service credit.
- The name of your one-time death benefit recipient.
- Accumulated contributions and interest in your Defined Benefit and Defined Benefit Supplement accounts.
- Information about your disability and survivor benefit coverage.

If you believe there's a discrepancy in your report, do not wait to correct errors. Contact your employer immediately.

Be sure to verify your paycheck information, including your deductions, each pay period.

Your Retirement Income Gap

How much money will you have to enjoy the future you want?

1. My Retirement Goal

My goal is to retire with _____ % of my working income.

According to financial advisers, you'll need 80–90 percent of your monthly income to maintain your standard of living in retirement.

Consider investing the percentage of your salary that would have gone to Social Security into a tax-advantaged 403(b) or 457(b) account, such as CalSTRS Pension2.

2. Calculate My Gap

$$\begin{array}{rcl} \frac{\text{Service Credit}}{\text{Age Factor}} & \times & = \frac{\text{}}{\text{}} \% \\ \text{My Goal} & - & \frac{\text{}}{\text{}} \% = \frac{\text{}}{\text{}} \% \end{array}$$

3. Bridge My Gap: What if I extend my career?

$$\begin{array}{rcl} \frac{\text{Adjusted Service Credit}}{\text{Adjusted Age Factor}} & \times & = \frac{\text{}}{\text{}} \% \\ \text{My Goal} & - & \frac{\text{}}{\text{}} \% = \frac{\text{}}{\text{}} \% \end{array}$$

4. Bridge My Gap: What if I purchase service credit?

$$\begin{array}{rcl} \frac{\text{Adjusted Service Credit}}{\text{Age Factor}} & \times & = \frac{\text{}}{\text{}} \% \\ \text{My Goal} & - & \frac{\text{}}{\text{}} \% = \frac{\text{}}{\text{}} \% \end{array}$$

➤ See “Purchasing Permissive Service Credit” and the “Age Factor” and “Career Factor” tables in the *Member Handbook*.

📺 View The Gap video at CalSTRS.com/videos.

Increase Your Retirement Benefit

You can increase your benefit by increasing one or more of the elements of the retirement benefit formula:

- Purchase additional service credit, if you're eligible to do so.
- Work longer to increase years of service credit and age factor, and to qualify for benefit enhancements.
- Convert unused sick leave to service credit at retirement.

service credit x age factor x final compensation

Purchase Additional Service Credit

The more service credit you have at retirement—earned or purchased—the greater your retirement benefit:

- Purchase service credit for eligible service in out-of-state or foreign public schools, the military, Peace Corps or Job Corps; or eligible employer-approved maternity, paternity or sabbatical leave and leave approved under the federal Family Medical Leave Act or California Family Rights Act.
- Redeposit previously refunded contributions and restore service credit if you return to CalSTRS membership or work in certain other California public retirement systems.
- Purchase nonmember service, such as part-time or substitute service in the California public school system, before you were a CalSTRS member or after taking a refund and before becoming a member again.

➤ See “Purchasing Permissive Service Credit” in the *Member Handbook*. Also see *Purchasing Additional Service Credit* at [CalSTRS.com/publications](https://www.calstrs.com/publications).

📺 View the Purchase Service Credit video at [CalSTRS.com/videos](https://www.calstrs.com/videos).

Work a While Longer

By working longer, you'll continue to earn service credit, which will increase your retirement benefit and can be used to qualify for the one-year final compensation and career factor benefit enhancements.

The older you are at retirement, the higher your age factor, up to a maximum age factor of 2.4 percent at age 63. If you retire with 30 or more years of service credit, you qualify for the career factor benefit enhancement, which adds 0.2 percent to your age factor up to a maximum combined age factor and career factor of 2.4 percent at age 61 years and 6 months.

Convert Unused Sick Leave to Service Credit at Retirement

Your unused sick leave will be converted to service credit when you retire. As soon as you change employers during your career, coordinate with your former employer to arrange for the transfer of your accumulated unused sick leave to your new employer.

➤ See “Converting Unused Sick Leave to Service Credit” in the *Member Handbook*.

It's cheaper to buy service credit now than later in your career. Estimate the cost to purchase service credit at [CalSTRS.com/calculators](https://www.calstrs.com/calculators).

Start a 403(b) or 457(b) Account Now

We get it. Retirement is probably one of the last things on your mind. We know you're busy, so we're making it easy for your future to start now.

Start Small

Did you know you can start saving with as little as \$25 a month? That's less than what you may be spending on your morning cup of coffee.

One of the smartest ways to save is to invest in a 403(b), 457(b) or IRA tax-advantaged account. It's never too early to start. Use the savings calculator in the front of this booklet to help you keep your savings on track.

Already saving? Congratulations! Consider increasing your monthly contribution.

Why Start Now

It's Smart

Power of time and money. With compounding, you earn interest on your total balance—your original contribution plus all interest earned and any additional contributions.

Tax advantages. When you contribute to your 403(b) or 457(b) account directly out of your paycheck, you defer taxes on the money you invest each month. Your earnings grow tax-deferred, and your monthly taxable income is lower. Contribute to a Roth 403(b) account through your paycheck and you won't get a tax break up front, but your contributions and earnings will be tax-free at retirement when you withdraw your funds.

More time to take risks. The earlier you start, the longer you'll be able to weather financial downturns and reap the benefits of strong economic times.

It's Easy

Three steps to opening your Pension2 account:

- 1 **Open your account** by calling toll free 844-353-2872 or enrolling online from the Pension2 ebook at Pension2.com.
- 2 **Determine how much you want to invest.**
- 3 **Fill out your district's Salary Reduction Agreement.** Find the form at your payroll office or 403bCompare.com (select *My Employer*).

To increase your monthly contribution, simply complete another Salary Reduction Agreement with your new contribution amount.

Pension2 Has Low Fees— Something Everyone Likes

Most investment plans charge fees and expenses. Even 1 percent can make a big difference in your bottom line over time. Compare fees charged by 403(b) plans in California at 403bCompare.com.

The Difference 1 Percent Can Make

Let's say you invest \$20,000 for 30 years, make no contributions and earn an average of 7 percent. Investment fees usually range from 0.5 percent to 1.5 percent a year. After 30 years, you'd have 35 percent more—that's an additional \$34,000.

* 0.50% = the average cost for Pension2 participants (0.25% admin fee + 0.25% average expense ratio)

Check out CalSTRS Pension2 403(b) and 457(b) plans with flexible investments, low fees and expenses.

CalSTRS Pension2 Complements Your Retirement Benefit

Pension2®, the CalSTRS voluntary supplemental savings plan, offers low cost, flexible 403(b), 457(b) and Roth 403(b) plans.

Need more for your future?

CalSTRS Pension2—Designed With Your Interests in Mind

- Investment options that match all levels of investment ability:
 - » **Easy Choice Portfolios**—designed to take into account your risk tolerance and retirement date, each is a ready-made mix of the core investment options.
 - » **Core Investment Options**—build your own portfolio from a carefully selected list of more than 20 funds.
 - » **Self-Directed Brokerage Account**—gives you access to a greatly expanded range of mutual funds.
- Simple, low-cost and transparent fee structure
- No commissions or surrender charges
- Easy payroll deduction of contributions
- Powerful planning and educational resources
- 24/7 account access

The Power of Time and Money

A Little Now Can Really Add Up Later

Let's say you contribute \$100 a month to your 403(b) account directly from your paycheck. If your account averages a 7 percent rate of return annually, you could have \$52,093 after 20 years. If you increase your monthly contribution to \$300 a month, your savings could grow to \$156,278—an increase of \$104,185. An added benefit of tax-deferred contributions: Your \$300 investment may reduce your paycheck by only \$173.*

*This hypothetical illustration assumes a combined 37 percent state and federal tax rate. It's not meant to represent the performance of any investment product and should not be used to predict investment performance. Any taxes and expenses associated with an actual investment are not reflected. While taxes are paid when funds are withdrawn, investors are often in a lower tax bracket at retirement.

CalSTRS Pension2 does not guarantee any rate of return on investments. Investing involves risk, including risk of loss of principal.

Name Your One-Time Death Benefit Recipient

You're working hard to earn your CalSTRS benefits. Be sure to name your loved ones or a favorite organization to receive your one-time death benefit. You also have disability benefits.

Your Survivor Benefits

Your spouse, children and other loved ones may be eligible for survivor benefits after your death. The type and amount of benefits depend on:

- Your years of service credit.
- Your type of coverage: A or B.
- Your membership status.
- Whether you elect an option.

Depending on your coverage and member status at the time of your death, your beneficiaries may be eligible for three types of benefits:

- One-time death benefit.
- Monthly benefit.
- Defined Benefit Supplement distribution.

One-Time Death Benefit

After your death, your one-time death benefit recipient will receive a one-time death benefit if eligibility requirements are met. The amount of this benefit depends on whether you die before or after retirement. You may name a living person, estate, trust or charity as your recipient.

You can change your death benefit recipient any time, with no financial penalty.

Monthly Benefit

If you die before retirement, your survivors, including your spouse or registered domestic partner and dependent children, may be eligible for a monthly survivor benefit.

You may choose to provide a lifetime monthly benefit, also known as an option, to your beneficiary instead of a monthly survivor benefit:

- When you are eligible to retire.
- Under Coverage B disability retirement.
- When you retire.

➤ See “Protecting Your Loved Ones Before You Retire” in the *Member Handbook*.

Defined Benefit Supplement Distribution

Your membership status when you die determines how the balance in your Defined Benefit Supplement account will be distributed.

If you die before retirement, your Defined Benefit Supplement account balance will be distributed to your one-time death benefit recipient. If you did not name a recipient, CalSTRS will pay the balance to your estate.

Name your one-time death benefit recipient using *myCalSTRS*. Then be sure to keep your recipient information current.

If you die after retirement, your account balance will be distributed to your one-time death benefit recipient or option beneficiary, depending on the distribution you elected at retirement.

➤ See “Survivor Benefits” in the *Member Handbook* and the *Survivor Benefits* brochure at CalSTRS.com/publications.

📺 View the Survivor Benefits video at CalSTRS.com/videos.

Your Disability Benefits

You may be eligible for disability benefits if you have a medically determined physical or mental impairment that is permanent or expected to last at least 12 consecutive months and:

- Prevents you from performing your usual duties with or without reasonable accommodation, or
- Prevents you from performing duties in a comparable level position.

In general, the basic disability benefit is 50 percent of your final compensation. The maximum benefit, including benefits for eligible dependent children, is 90 percent of your final compensation.

So that you have income while your application for disability benefits is pending, you can apply for service retirement during evaluation of your application, if you’re eligible to service retire, or you may apply while:

- You are still working.
- You are receiving sick leave or differential pay.

Unlike workers’ compensation benefits, your disability benefit does not require your disability to be work-related.

➤ See “Disability Benefits” in the *Member Handbook* and the brochure, *Introduction to CalSTRS Disability Benefits*, at CalSTRS.com/publications.
