

# Welcome to the BMI Research 2015 Catalogue

BMI Research's products and services are designed to help you assess and manage risks in international markets, as well as provide you with specialist insight on emerging markets. Our country risk and financial markets analysis, integrated with industry analysis and company intelligence is designed to inform strategic decision making, operational planning and competitor analysis. This is all possible through our wealth of proprietary data, analysis, rankings and forecasts spanning across 200 countries and 24 industry sectors.

Our products and services are used by clients from over 160 countries worldwide who trust and rely on BMI Research's expert analysis. They include corporates, governments, academia, financial institutions, investment funds and research centres all over the world.

#### **Country Risk**

BMI Research has a wide range of products to suit your needs including over 100 individual Country Risk Reports. Each report contains in-depth data, analysis and forecasts on a country's economic, political and business environment outlook over a 5-year horizon to give you the risks and opportunities of operating in the market. BMI Research also produces 21 monthly sub-regional newsletters containing essential macroeconomic analysis, risk assessment and financial developments across key regions.

See pages 12 and 16 & 17

#### **Industry Analysis**

BMI Research publish over 1300 reports on 24 separate industries by country and region, containing forecasts, business environment Risk Reward Indices, competitive intelligence and hard analysis of the latest industry developments to help you optimise the scope of your operations and investments. Also available are 45 monthly industry newsletters providing analysis, forecasts and ratings for 10 main industry sectors across key regions.

See pages 5-10 and 22 & 23

# Multinational Companies / Industries / Professionals Database

BMI Research's database products are powerful, costeffective business development and research tools, delivered in an easy-to-use online database. They allow you to immediately source, select and browse multinational contacts and companies in your chosen industry and country. The database products feature over 325,000 fully researched senior executives at more than 160,000 leading multinational companies located across Africa, Asia, Europe, Latin America and the Middle East.

See page 15

# Global Financial and Risk Analysis

Weekly and monthly newsletters provide global macro and financial market views and forecasts for major frontier, emerging and developed markets, as well as industry and corporate financing insights, and our monthly pick of FX forecasts and commodities price analysis.

See pages 18-21

As well as being available individually, all of the above products, data and analysis can also be accessed in one place, through our powerful and newly improved platform. Find out more about this service on page 3-4.

### Contents

**Emerging FX Monitor** - monthly assessment of FX forecasts across developed and emerging markets **Commodities Monitor** - monthly pick of commodities analysis across energy, metals, grains and softs

#### 22-25 Regional Industry Insights

**Industry Insights** - monthly analysis of latest trends, regulatory changes, projects and investments for 9 main industry sectors, systematically structured across 5 regions on a country by country basis

#### 26 Order Form

Order form and contact details.

# Global Coverage, Total Analysis

#### BMI Research is the home of Total Analysis.

It's a vital tool for strategic decision making with all our forecasts, analysis, data and indices in one place, on a brand new platform.

Where could the BMI Research platform take your business?

At BMI Research, we believe in Total Analysis. It's a comprehensive, reflexive approach to research that allows us to link macroeconomic and financial market analysis to gain unparalleled insight across 24 industries and 200 global markets.

Whether you're a corporate manager, investor, or analyst looking to evaluate cross-border risks and opportunities you can benefit from Total Analysis. All our forecasts, analysis and data are available in one place, on one powerful platform.

#### **Daily Views**

#### Razor sharp insights, every day

With a blizzard of information and countless content sources, we know how hard it is to cut through to the important issues affecting your business. That's why, every day, our analysts go beyond the headlines to provide fully actionable daily views and insights.

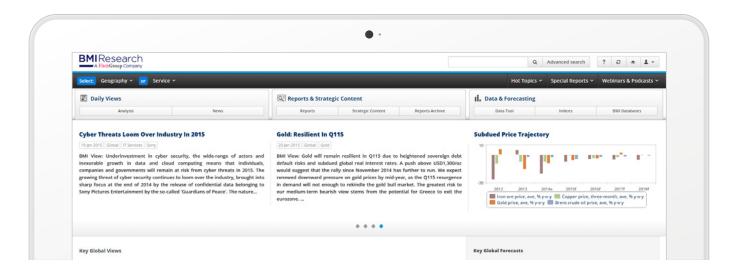

Accessible via the platform or as fully customisable email alerts, we help you keep up with the latest developments, find out how they're related and understand what they mean for your strategic and operational decision making.

#### **Reports & Strategic Content**

#### Helping you make the right decisions

When you're making important investment or strategic decisions, you need trusted insight. Our industry and country specific reports provide you with 5 and 10-year forecasts, in-depth analysis of current risks, and future opportunities in the markets of your choice.

Covering 24 major industries, our sector specific reports detail company strategy, key growth trends and risk/rewards. Monitoring 200 countries, we assess markets from the top down, taking into account global and regional developments in economic, business and political environments, as well as from the bottom up, undertaking market sizing, competitive landscape and supply chain analysis.

#### **Data & Forecasting**

#### Fully actionable insight

The online platform comes with an intuitive and user friendly interface which allows you to access the 1.24m+lines of data that underpin our Total Analysis, quickly and easily.

Instantly update existing charts with the latest available data, or create your own charts to download and use offline. If you have favourite data or forecasts for use in regular presentations, you can annotate, save, and come back to them at any time.

#### **Analyst Access**

From the moment you log on, you know you're working with the latest information available. In fact, the only way you could get better analysis is if you talked one-on-one with our experts yourself. Which is why we provide that too. Through BMI Research you have direct access to the experts who produce our Total Analysis. So if you've got any questions, you know who to ask.

Our forecasts, analysis, data and indices are relied upon by 8,500 organisations in over 100 countries

#### **Dedicated Support**

As a BMI Research client, you would have the support of our dedicated Account Management Team. Operating from London, New York, Singapore and Pretoria, they are on hand to ensure you get the most out of the Service by undertaking training and implementation, providing product development updates, or assisting with specific content or research queries.

#### Your Platform, Your Choice

Whether you need global coverage of all industries and markets, or more focused coverage of specific countries and sectors, you can tailor the service to suit your needs. Which ones are right for you?

- Country Risk
- Financial Markets
- Commodities
- Agribusiness

- Power
- Real Estate
- Renewables
- Retail
- Shipping
- Telecommunications
- Tourism
- Water

Where could the **BMI Research Platform** take you? Go to **bmireseach.com/platform** to find out.

# **Industry Market Reports**

Example reports.

BMI Research's extensive range of Industry Market Reports provide in-depth analysis and forecasts, covering 24 major industry sectors for more than 125 country markets.

Use these reports for budgeting and strategic planning, risk management, trend evaluation and competitor analysis.

A must-read when planning company strategy, managing risk and identifying new opportunities, these reports contain proprietary industry forecasts, business environment Risk-Reward Indices, competitive intelligence, company profiles and hard analysis of the latest industry developments.

The Industry Market Reports help you assess and enhance your performance in your marketplace in the following ways:

- Budgeting and Strategic Planning Proprietary and independent industry forecasts provide a key input into your strategic business planning and budgetary activities, helping you identify opportunities for new investment and growth
- Manage Risk Risk Indices allow you to identify operational, market and countryspecific risks to your activity
- Trend Analysis Reviews of the latest industry trends, regulatory changes and major deals and projects & investments enable you to evaluate the commercial potential in your market
- Competitor Analysis\* Competitive landscape analysis and company profiles provide valuable input when assessing the activities, strategy and market position of your competitors, partners and clients

Developed to aid your decision-making, these reports provide reliable, stress-tested industry forecasts and growth assumptions that you can use to benchmark your business development plan, as well as to test other forecasts based solely on industry- or company-specific variables.

# Country Risk Reports

Example reports

BMI Research's range of Country Risk Reports provide in-depth data, analysis and forecasts over a 5-year horizon for more than 130 countries worldwide.

Written for corporate strategists, business managers, analysts, and anyone tasked with planning future business development and strategic direction, each report focuses on a specific country or group of countries, looking at risks and opportunities in the market. The reports are written by country experts, backed by BMI Research's economics team and an extensive network of in-country, international, private and public-sector sources.

#### Content summary of each country report:

Each report contains detailed analysis of the economic, political and business environment outlook of a country, to help you formulate successful growth/risk strategies over a 5-year

- **Economic outlook** details economic activity, balance of payments, monetary policy, exchange rate policy, fiscal policy, foreign direct investment and external debt. Plus extensive data and forecasts, to enable you to fine tune your strategy
- Political outlook features a detailed SWOT analysis, political stability and security riskindices, assessment of threats to the current administration and likely changes to the business operating environment. The report also assesses the dominant public issues likely to affect decision-makers
- Operational Environment includes a summary of the main risks and difficulties associated with operating in the country from the labour market, logistics and utilities infrastructure, trade and investment and crime and security sectors

# Operational Risk Reports

Example reports

BMI research's new Operational Risk Reports provide insight on the practicalities and major risks of operating within key emerging markets.

Written for risk managers, government representatives, consultants and HR professionals, the reports covering 80 individual markets inform you of the practicalities and major risks of operating in a country. The reports assess threats stemming from the labour market, logistics infrastructure, trade & investment regulations and crime & security. It gives you all the information you need, whether you currently operate in a country or are considering a move into the market.

#### The reports cover 4 key areas of risk:

- Labour Market Risk: Understand the capabilities of the workforce in order to guard against any issues that might impact your business
- Logistics Risk: Know the strengths and weaknesses of the country's supply chain and utilities infrastructure and how this would support or challenge your operations
- Trade and Investment Risk: Evaluate how the trade restrictions & investor-focused legislation could present problems for your company
- Crime and Security Risk: Discover the greatest threats to your staff and business operations in the country

If your focus is only on one of the 4 areas above then BMI Research also provide country reports for each individual area of risk. Please contact us for more information.

# **Emerging Markets Monitor**

**Emerging Markets Monitor (EMM)** brings you a weekly top-down and bottom-up, fully integrated perspective of emerging markets and their relationships with the US, eurozone and Japan.

Analysis of market views and assessments of countries and regions (on a global, inter and intra-regional level), combined with macroeconomic forecasts and political predictions, gives you a holistic view of emerging markets risk.

EMM identifies global trends and market correlations, providing you with clear asset class strategies to help inform your strategic investment decisions.

A subscription to Emerging Markets Monitor includes online access to all articles, forecasts, economic data and back issues via a dedicated website. The online service allows you access to all the latest and archived content, provides a key word search function and also gives you the ability to download current and past PDF issues of EMM.

#### Use EMM to:

- Sharpen your forecasting, using EMM's analysis of equities, currencies, fixed-income instruments and commodities, including short, medium and long term views and coverage of smaller 'frontier economies'
- Implement successful foreign exchange strategies using EMM's short-term and 2 year forecasts for more than 60 currencies against the US dollar, euro and yen
- Manage commodity price volatility risk with EMM's coverage of metals, energy and agricultural commodities, including short-term technical views and long-term market dynamics
- Identify relative asset class strategies using EMM's tables, giving you an instant outline
  of key views and supporting rationale on regional equities, currencies and fixed income
  products

**Emerging Markets Monitor** is essential reading for asset managers, investment professionals and senior level executives seeking reliable analysis on emerging global trends and risks to financial markets and economic performance worldwide.

### Frontier Markets Monitor

**Frontier Markets Monitor (FMM)** is a new monthly publication, providing you with exclusive BMI Research views and analysis of political and economic developments in exciting, but frequently overlooked markets across the world. It is the only monthly subscription publication on the market dedicated to covering these rapidly growing economies in a 'one-stop' format. You get insightful analysis of the risks and rewards of these promising economies to inform your next strategic move when looking for markets with high investment potential.

The countries covered are typically small, or are large but less well integrated with the global economy than 'mainstream' emerging markets. This is due to a variety of structural factors, ranging from chronic mismanagement and isolationism to sanctions and conflict. Often these economies are growing rapidly, and have the potential to accelerate sharply, once structural impediments are overcome. In several cases, the countries in question have tremendous investment opportunities over the long term, and Frontier Markets Monitor gives you regular assessment of the rewards and risks facing investors already operating in or considering entering these states.

#### Use FMM to:

- Plan your investment strategy by fully assessing each individual market within your region, using BMI's systematic country-by-country coverage backed by a wealth of charts, graphs and tables
- Adjust existing strategies by anticipating and evaluating key changes in political, macroeconomic and business environment risk with BMI's in-depth Country Risk Summaries
- Plan for growth and development in your markets using the 12 and 24-month forecasts for all major economic indicators
- Identify potential risks and opportunities through detailed business environment analysis, outlining recent and likely changes in government policies

Featuring macroeconomic forecasts as well as economic and political risk summaries and analysis of the business environment, the **Frontier Markets Monitor** ensures investors can keep one step ahead of their competitors in identifying future expansion opportunities.

### Global Macro Monitor

Global Macro Monitor is essential reading for strategic planners, procurement professionals, risk managers and senior company executives who need an independent perspective on the potential impact of global macroeconomic change.

**Global Macro Monitor (GMM)** provides you with a powerful 'one-stop' monthly outlook on prospects for the global economy.

The top down, global macro approach helps you make better informed commercial, investment and strategic decisions when you are looking to expand or protect global business operations.

#### Use GMM to:

- Anticipate emerging global economic trends and react to risks/opportunities ahead of your competitors
- Assess how major factors shaping global financial markets will affect your profitability, using the indepth insights
- Formulate strategic plans, using the fully integrated 5-year forecasts for growth, inflation and currencies across key states including the US, eurozone, Japan and China
- Identify relative value asset strategies on a regional and global basis, including equities, fixed income, currencies and commodities
- Manage price volatility risk for key markets including oil, metals, softs and grains using the supply/demand forecasts, price projections and technical analysis

#### Monthly coverage includes:

- Global Macro Outlook
- Key Global and Regional Market Views
- Global and Regional Asset Class Strategies
- Global and Regional Assumptions
- Global Commodities Outlooks and Forecasts

# Corporate Financing Week

#### Corporate Financing Week

is designed for senior level executives needing to anticipate changes in sector or geographic trends and track growth strategies across the corporate finance arena. **Corporate Financing Week (CFW)** is a weekly magazine bringing you detailed analysis of the most recent events and trends in the global M&A market, along with IPO activity, privatisations, nationalisations, future deals, divestment strategies, company financing strategies, and current corporate financing trends.

It focuses on 8 core sectors, covering key landmark deals and events. The exhaustive coverage charts vital deal information and statistics such as deal quantity, size and value, accompanied by year-on-year comparative and historical analysis.

It provides insight into current and future corporate financing trends and traces financial flows on both international, national levels, and in industry-specific landscapes, identifying key growth opportunities and risks. The magazine highlights key growth areas and allows its readers to target key equity and debt financing strategies, and exploit burgeoning industry trends.

#### Use CFW to:

- Target growth areas key global market views section summarises CFW's top five corporate financing views
- **Exploit early analysis** of key equity and debt financing strategies before they become a full-blown trend
- Track industry trends CFW reports the most active industries in global M&A, charting vital deal information and statistics along with historical analysis
- Get an essential insight into current industry themes and their implications via CFW's M&A tables for both top ten US and top ten global deals each week.

# **Emerging FX Monitor**

**Emerging FX Monitor** delivers BMI's monthly pick of FX forecasts for both developed states and emerging markets, including BMI's proprietary forecasts as well as qualitative assessments of the key factors driving currency trajectory over the next two years. It also includes BMI's latest inflation, interest rate and exchange rate projections for all key emerging market and global economies on a monthly basis.

The Emerging FX Monitor showcases the breadth and depth of BMI's EM FX forecasting capabilities. The newsletter includes one global round up article, followed by two developed state currency forecasts, then three emerging market FX forecasts from each region (Asia, LatAm, Emerging Europe and Middle-East/Africa).

The selected forecasts include BMI's proprietary forecasts as well as a qualitative assessment of the key factors driving currency trajectory over the next two years, based on the integration of macroeconomic, political and financial market (global, regional and domestic) developments. In addition to the individual forecasts, clients will also receive a complete list of BMI's inflation, interest rate and exchange rate projections for all key emerging market and global economies.

#### Monthly coverage includes:

- Three detailed currency forecasts for each major EM region (Asia, LatAm, Emerging Europe and Middle-East/North Africa/Sub-Saharan Africa)
- Two developed state forecasts
- A monthly update of BMI's global FX strategy
- Complete tables of BMI's EM FX, interest rate and inflation forecasts

### **Commodities Monitor**

**Commodities Monitor** is a monthly publication delivering the pick of commodities price analysis across energy, metals, grains and softs. The report features BMI's proprietary price forecasts and qualitative assessments of the key factors driving price trajectory over the next five years.

Commodities Monitor showcases the breadth and depth of BMI's commodities forecasting capabilities. The report includes one global round up article, followed by eight commodity-specific price forecasts and extensive data.

The selected forecasts illustrate BMI's proprietary methodology, combining both technical and fundamental supply and demand analysis. Price forecasts leverage off extensive in-house industry and financial market expertise to provide a holistic, stress-tested view on the key factors driving commodity prices over the next five years. In addition to the individual forecasts, clients will also receive extensive data including a complete list of BMI's price forecasts, select fundamental metrics and benchmarking of BMI forecasts against both consensus and the futures market.

#### Monthly coverage includes:

- An update of BMI's global commodities strategy
- A global commodities round up
- Eight detailed commodity price forecasts ranging across energy, metals, grains and softs
- Extensive charts and tables detailing BMI's price forecasts and select fundamental metrics
- Benchmarking of BMI forecasts against both consensus and the futures market
- Monthly pick of commodities analysis across energy, metals, grains and softs

#### **Publication Details and Prices**

- Emerging FX Monitor monthly report, includes access to the latest PDF on the day of publication
- Commodities Monitor monthly report, includes access to the latest PDF on the day of publication
