Marcum's clinical staff will review a sample of your facility's medical records, either on-site or remotely, to ensure that there is supportive documentation for Medicare and Medicaid reimbursement, that staff is in compliance with federal and state guidelines, and that staff understands their role in state on-site surveys.

At the end of Marcum's visit, the facility will know the areas that need improvement to ensure positive outcomes from an audit or survey. In addition, suggestions for education and preparation of staff will be offered. Marcum's clinical team is available to conduct a variety of educational programs for all levels of staff in your facility.
